

total_death
Forecast by Meta-Model vs Actual Outcome by Simulator

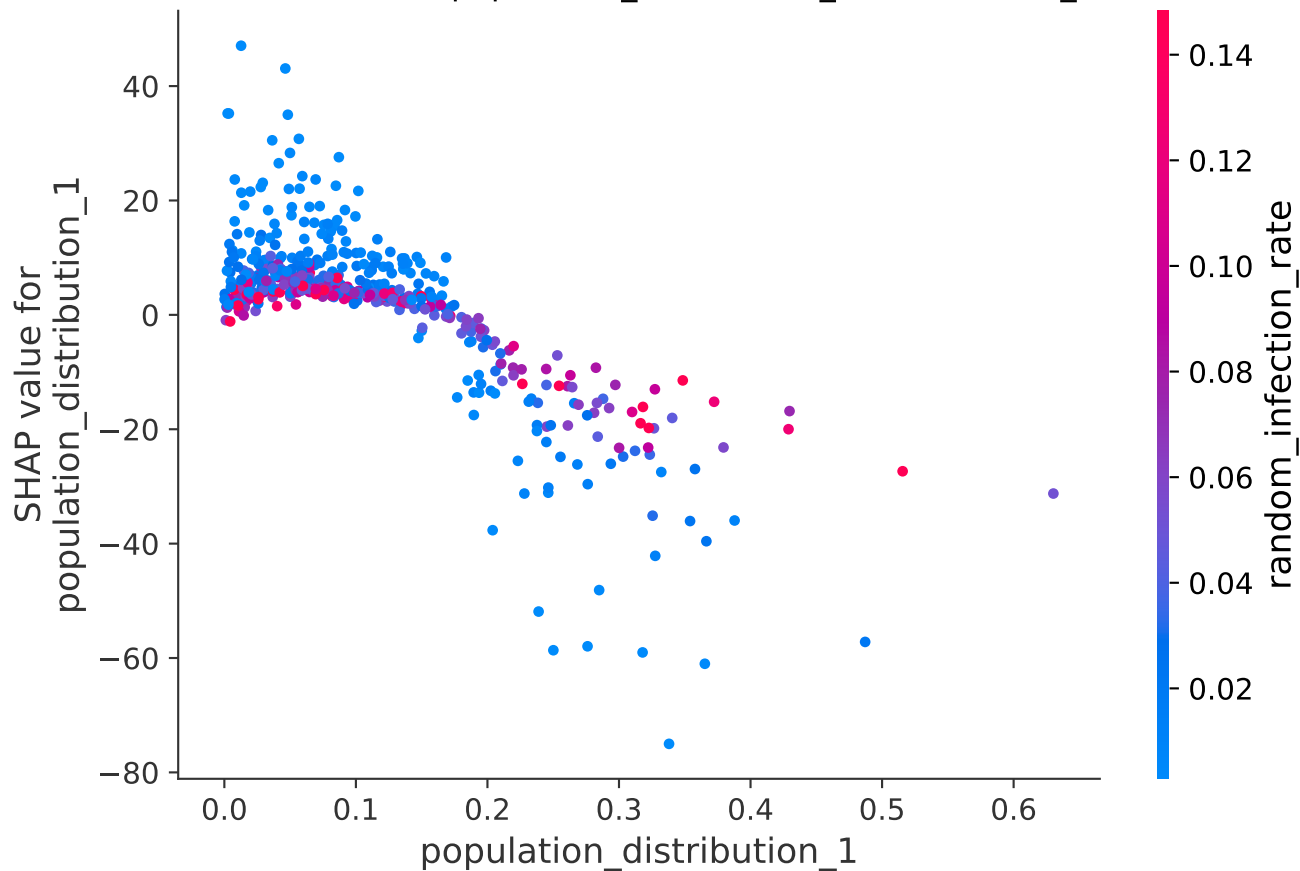

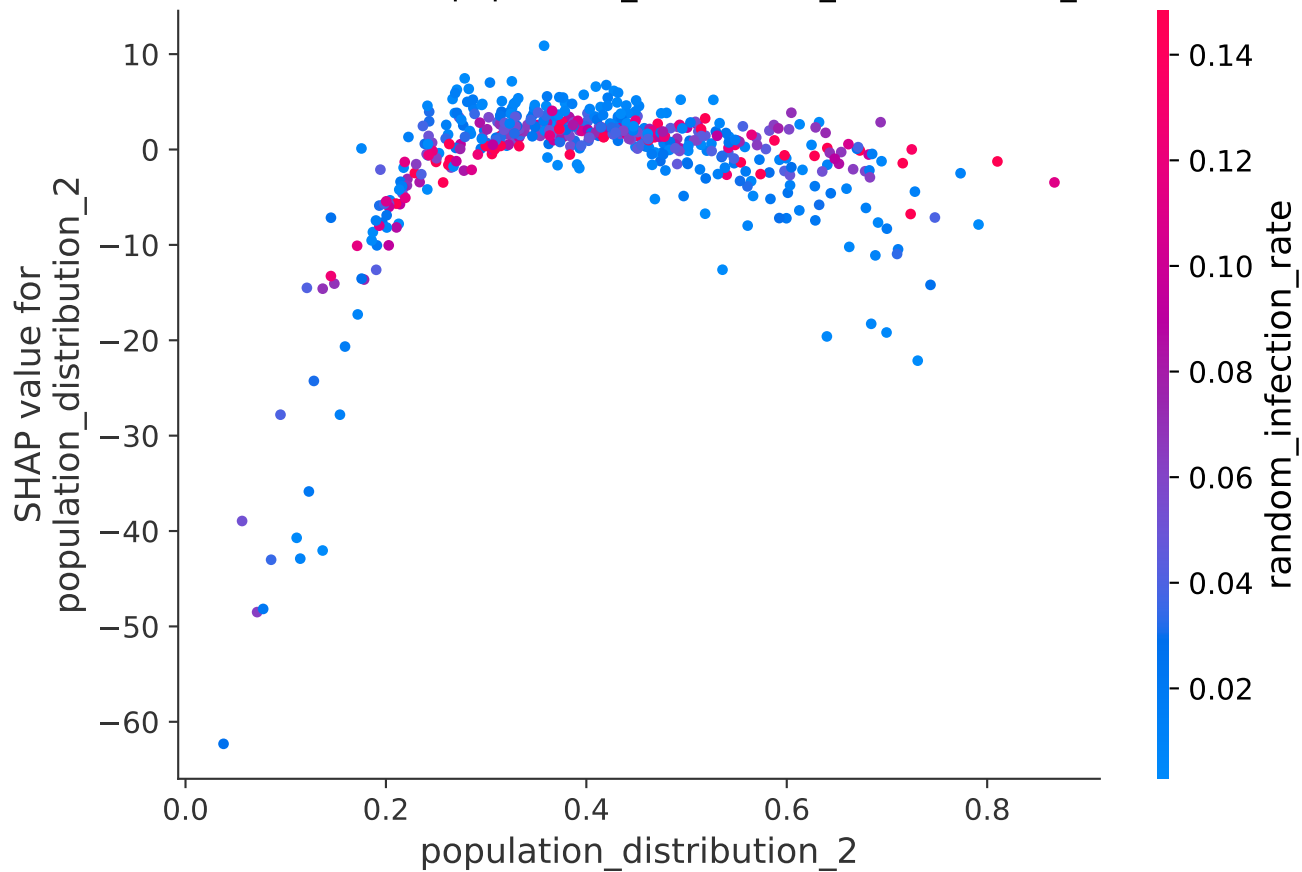

How Interaction with population_distribution_0 Affects total_death

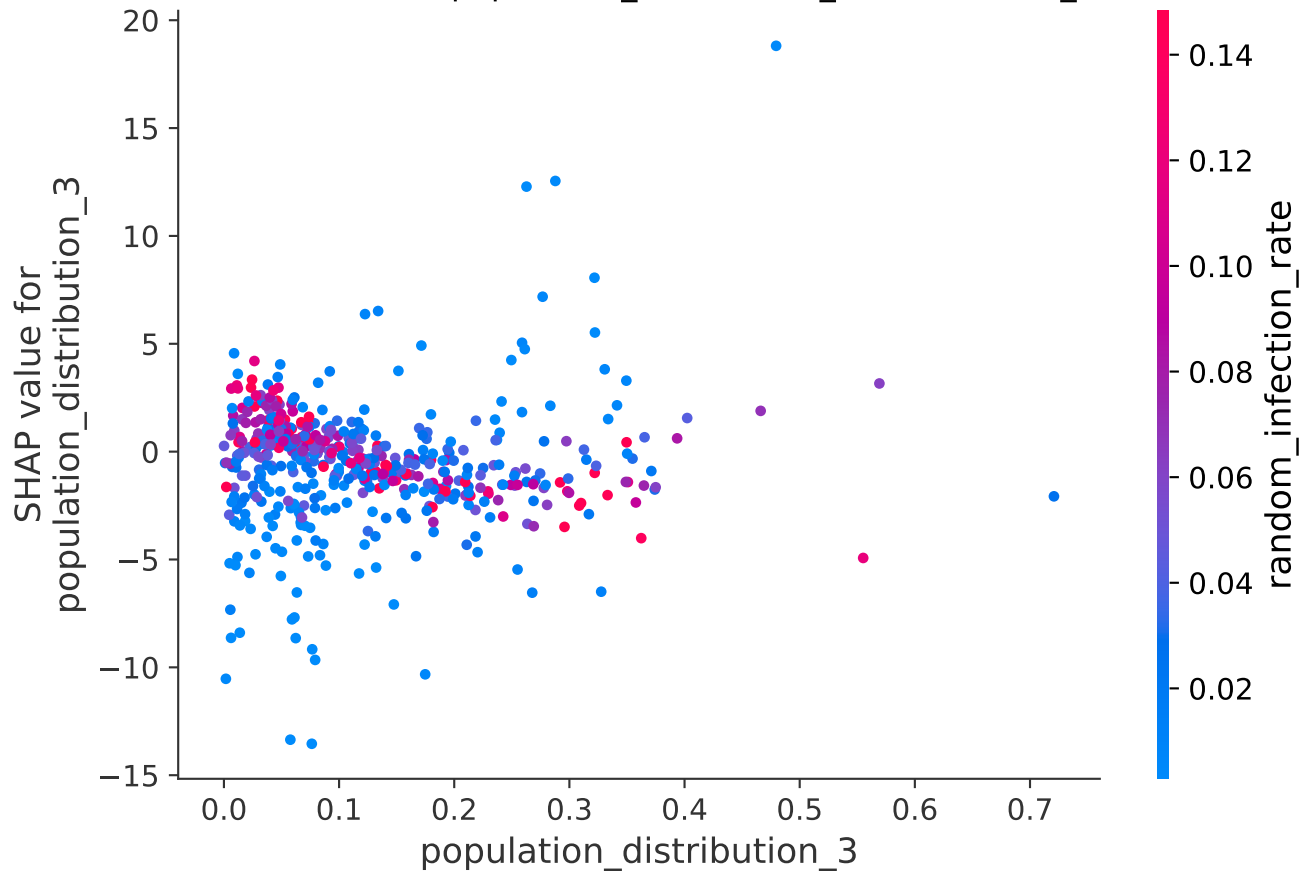

How Interaction with population_distribution_1 Affects total_death

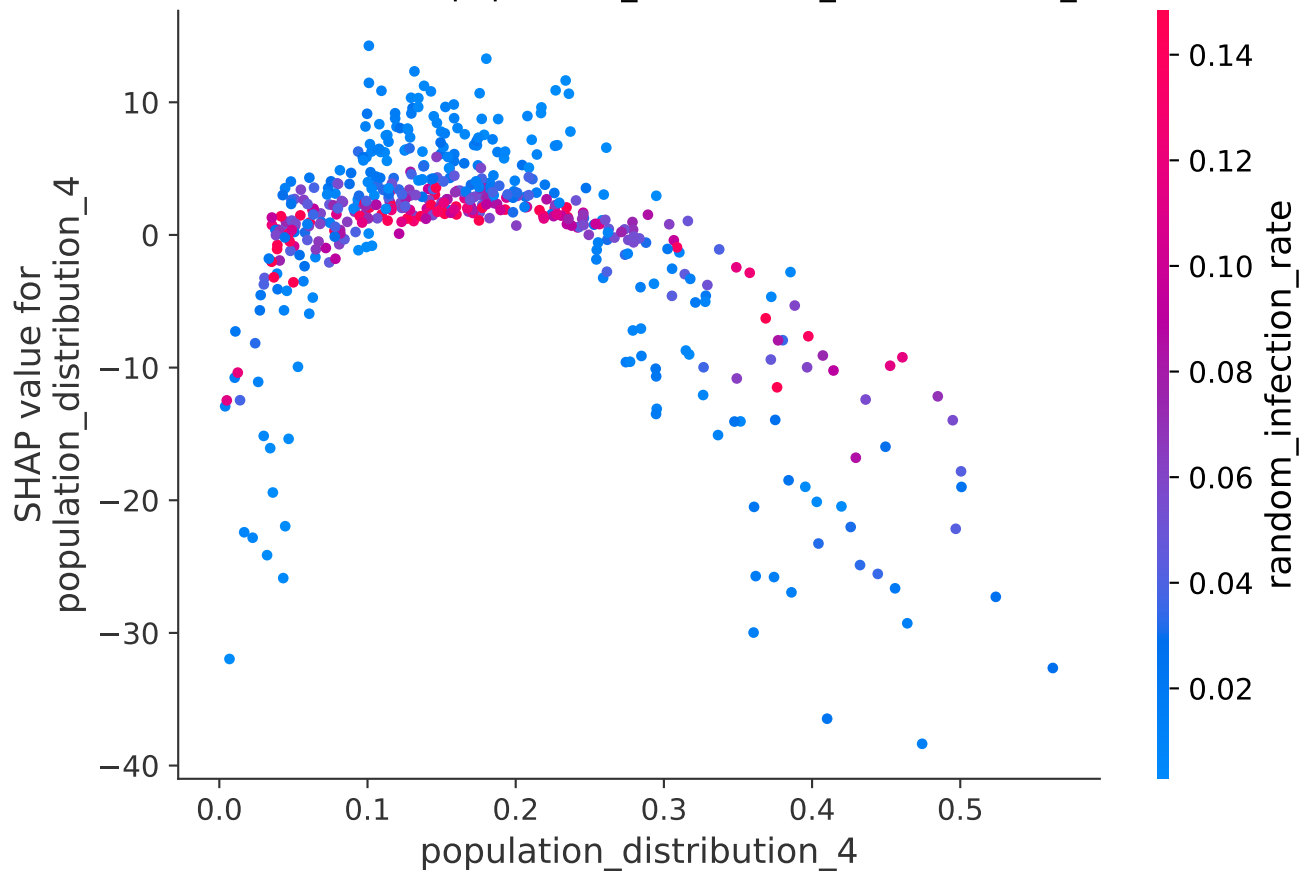

How Interaction with population_distribution_2 Affects total_death

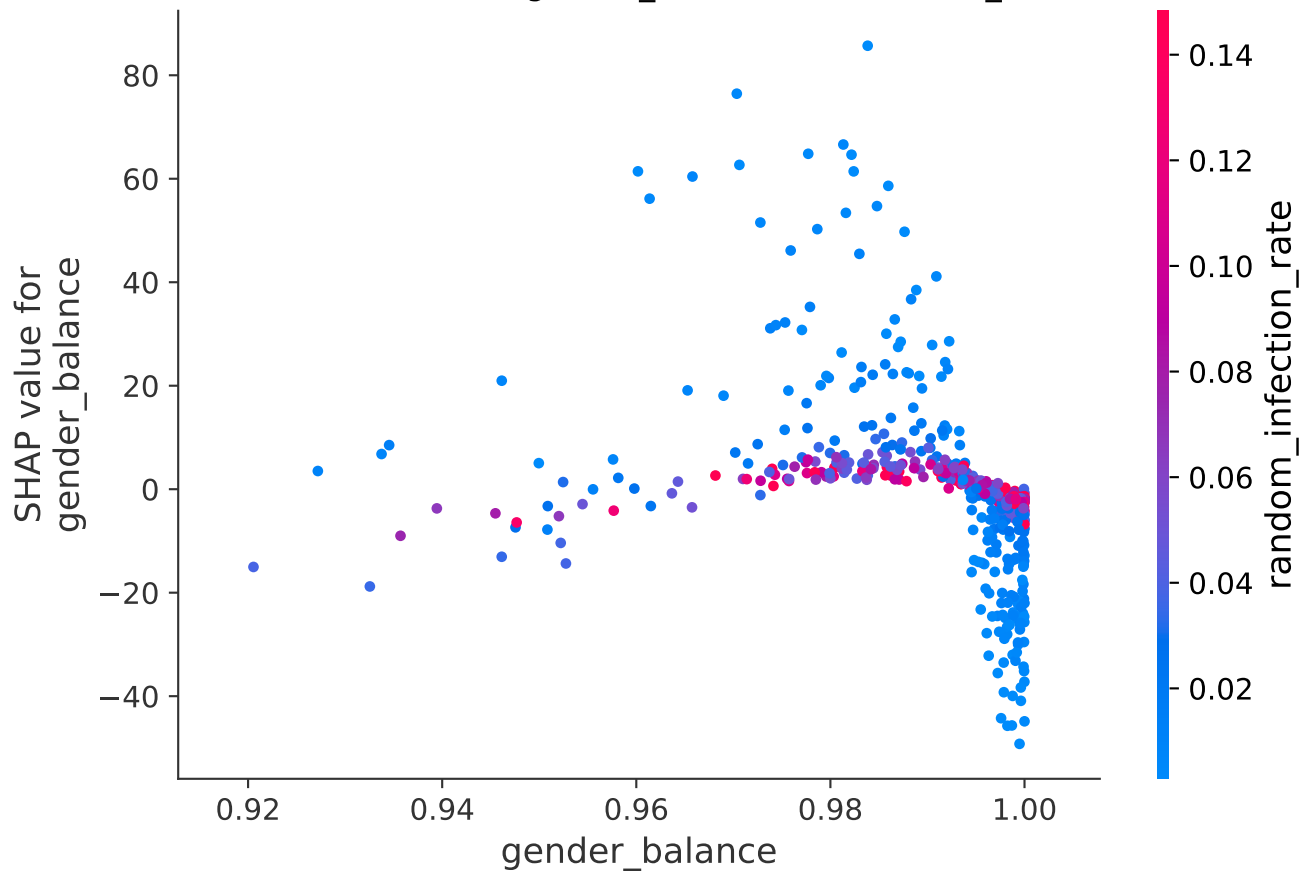

How Interaction with population_distribution_3 Affects total_death

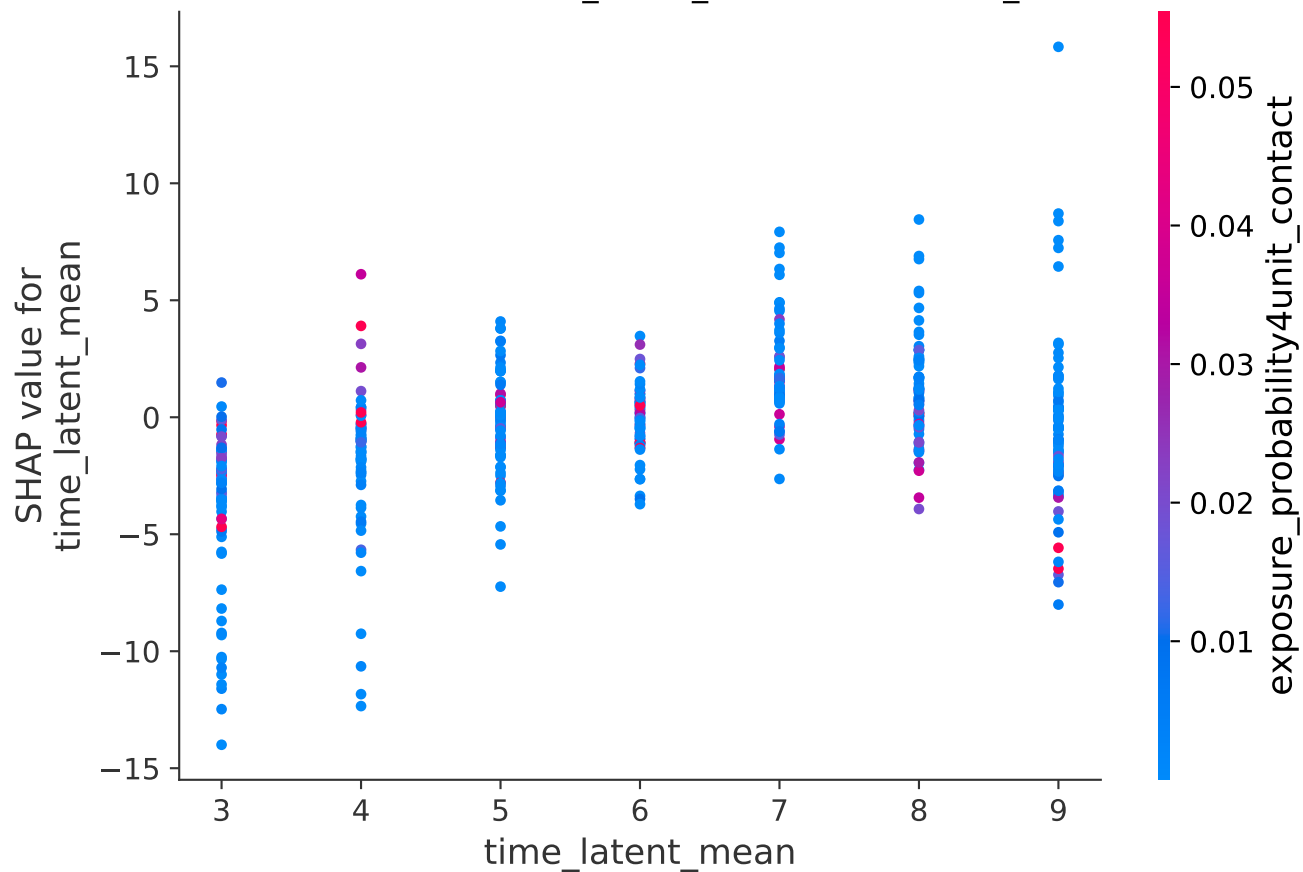

How Interaction with population_distribution_4 Affects total_death

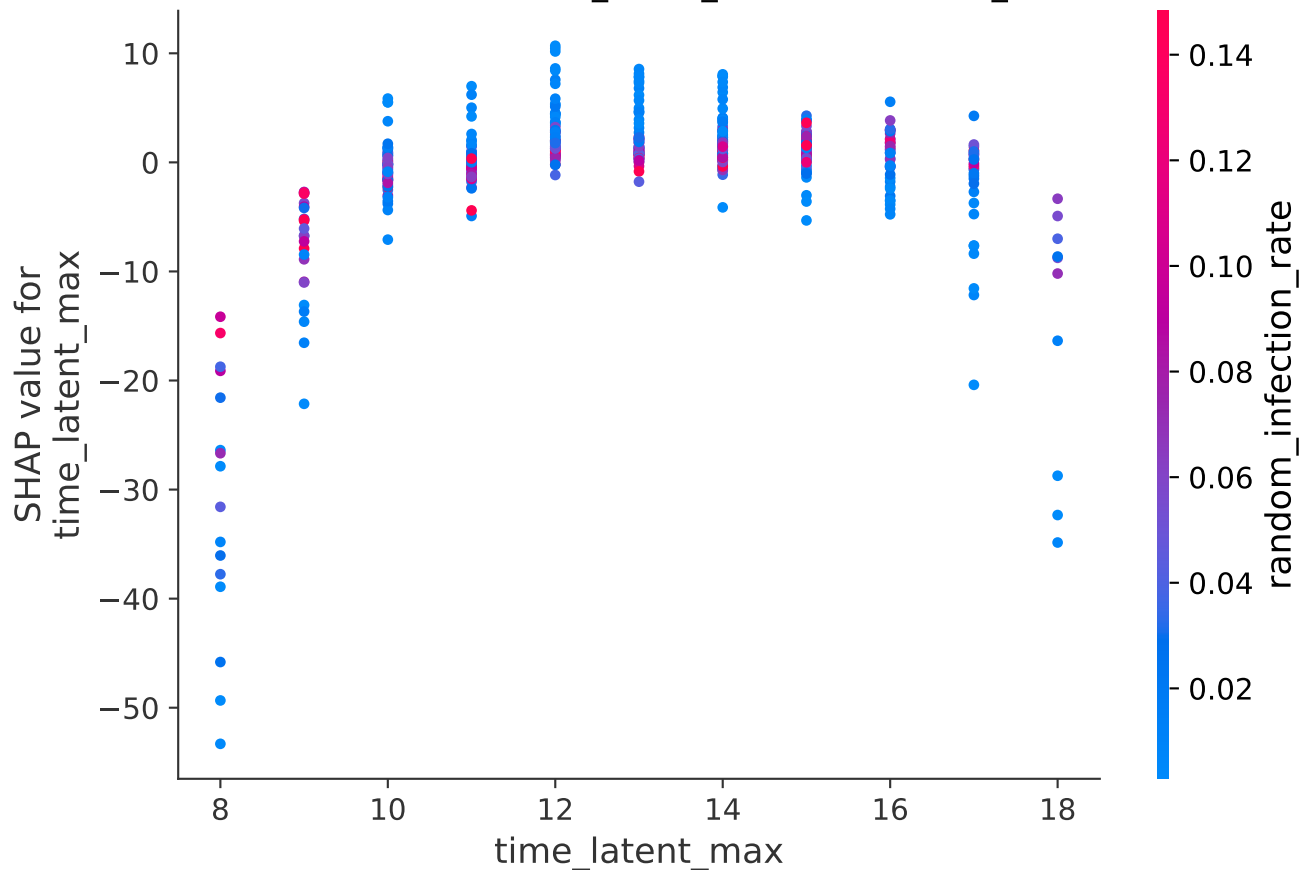

How Interaction with gender_balance Affects total_death

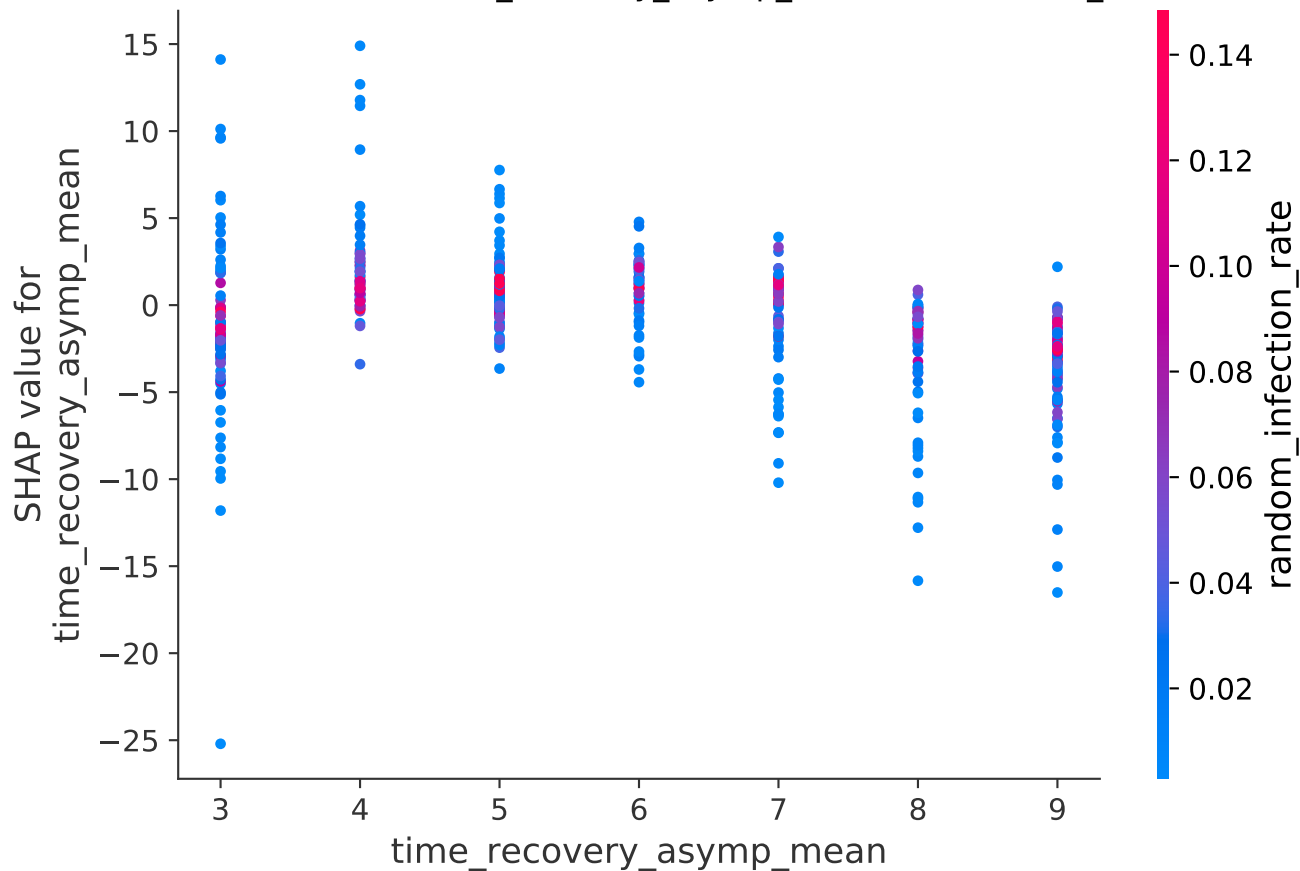

How Interaction with time_latent_mean Affects total_death

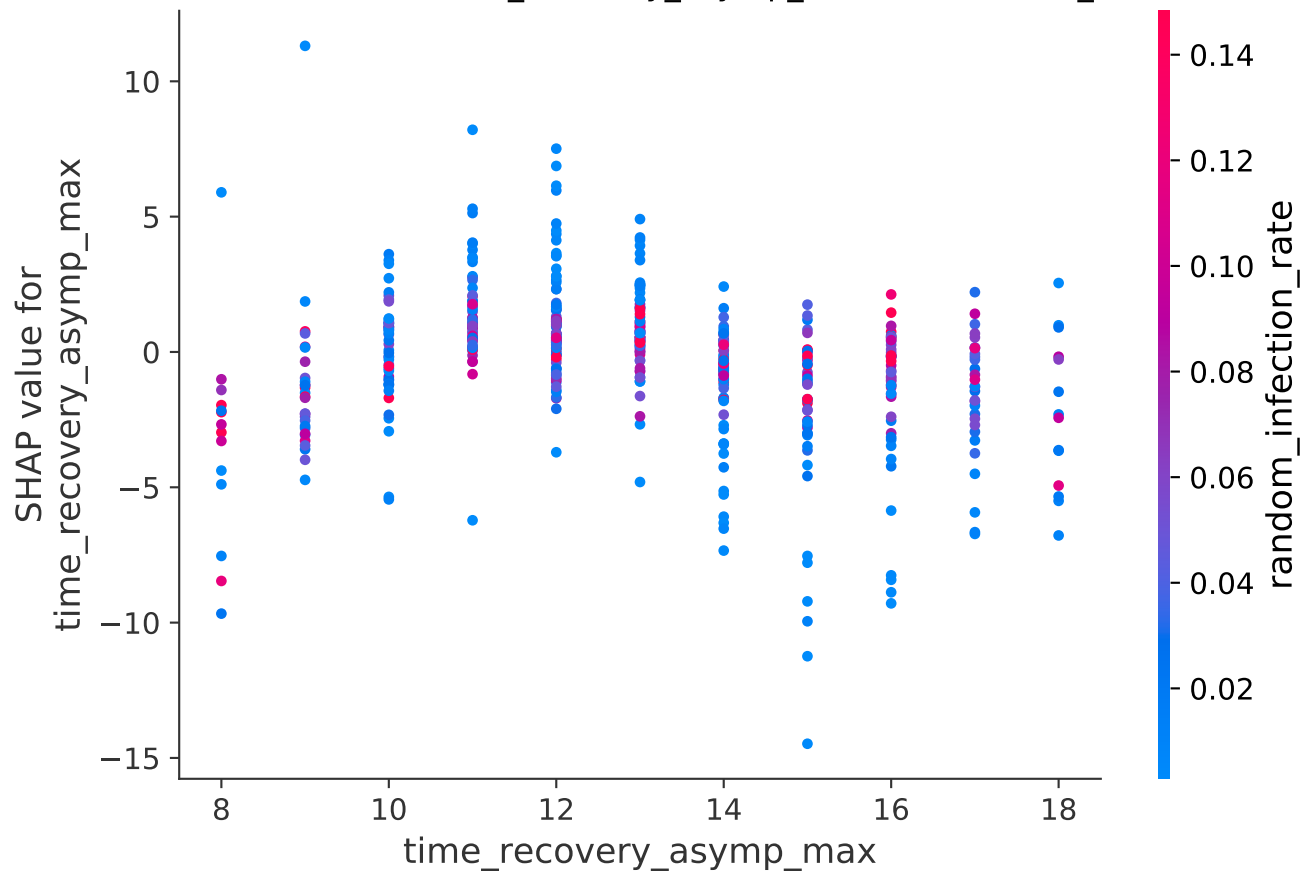

How Interaction with time_latent_max Affects total_death

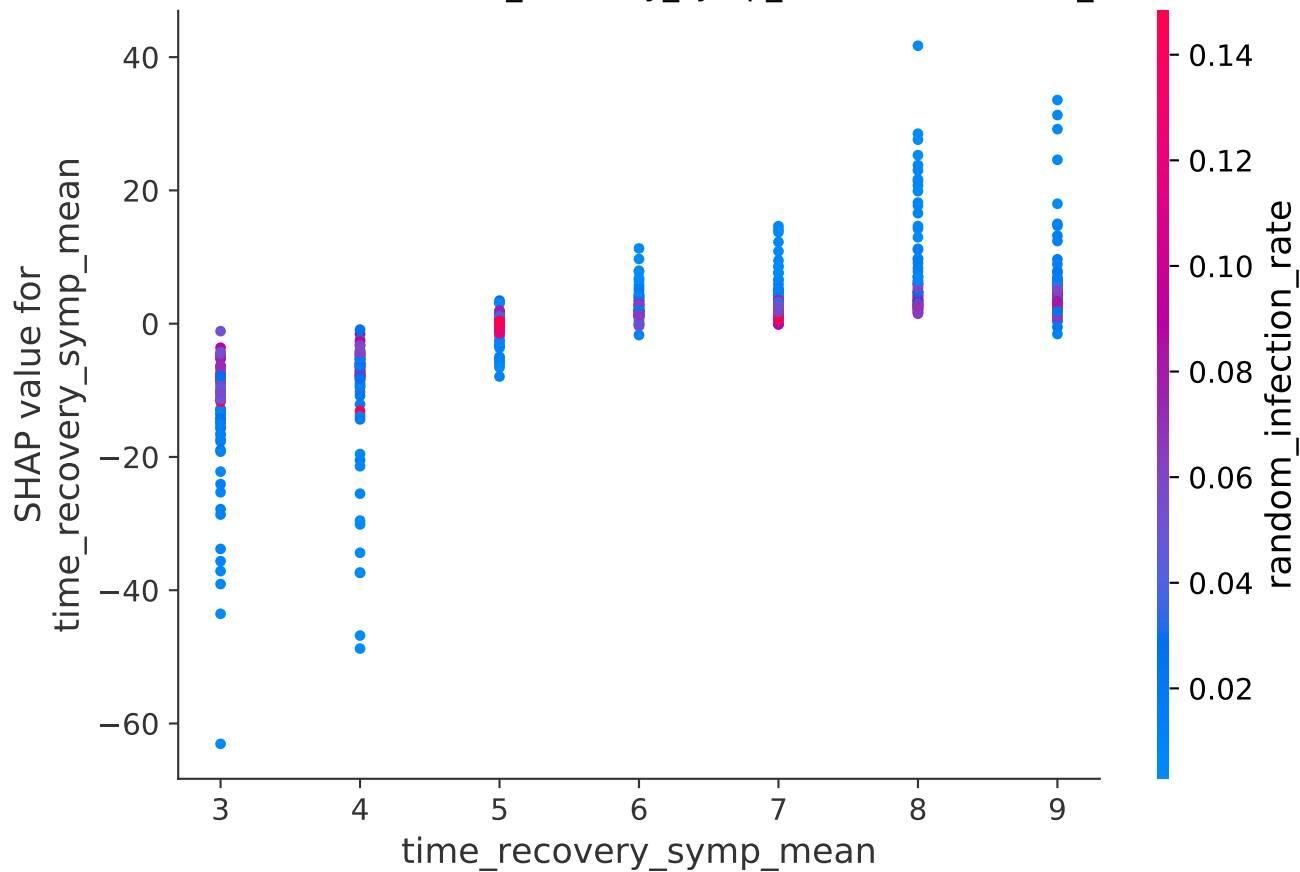

How Interaction with time_recovery_asymp_mean Affects total_death

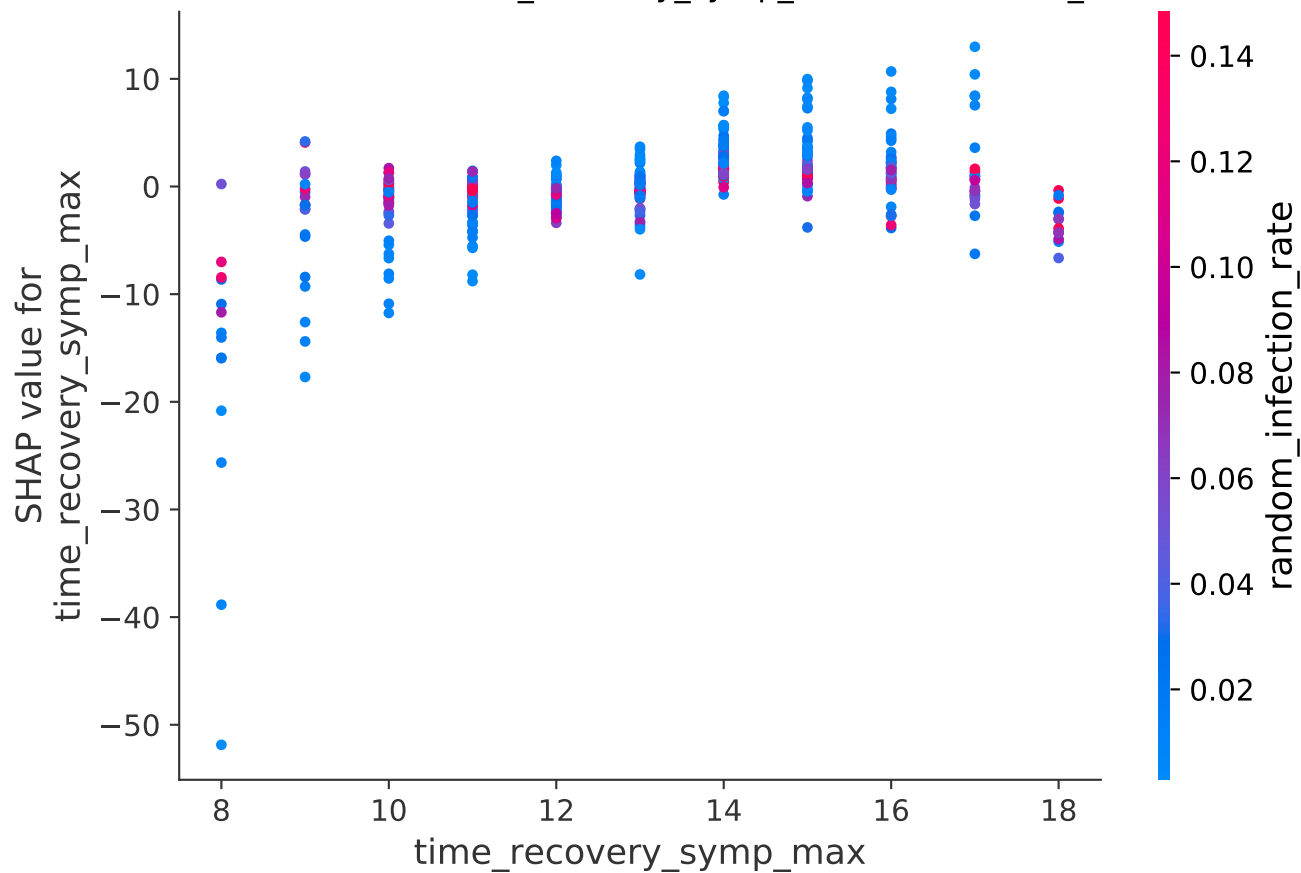

How Interaction with time_recovery_asymp_max Affects total_death

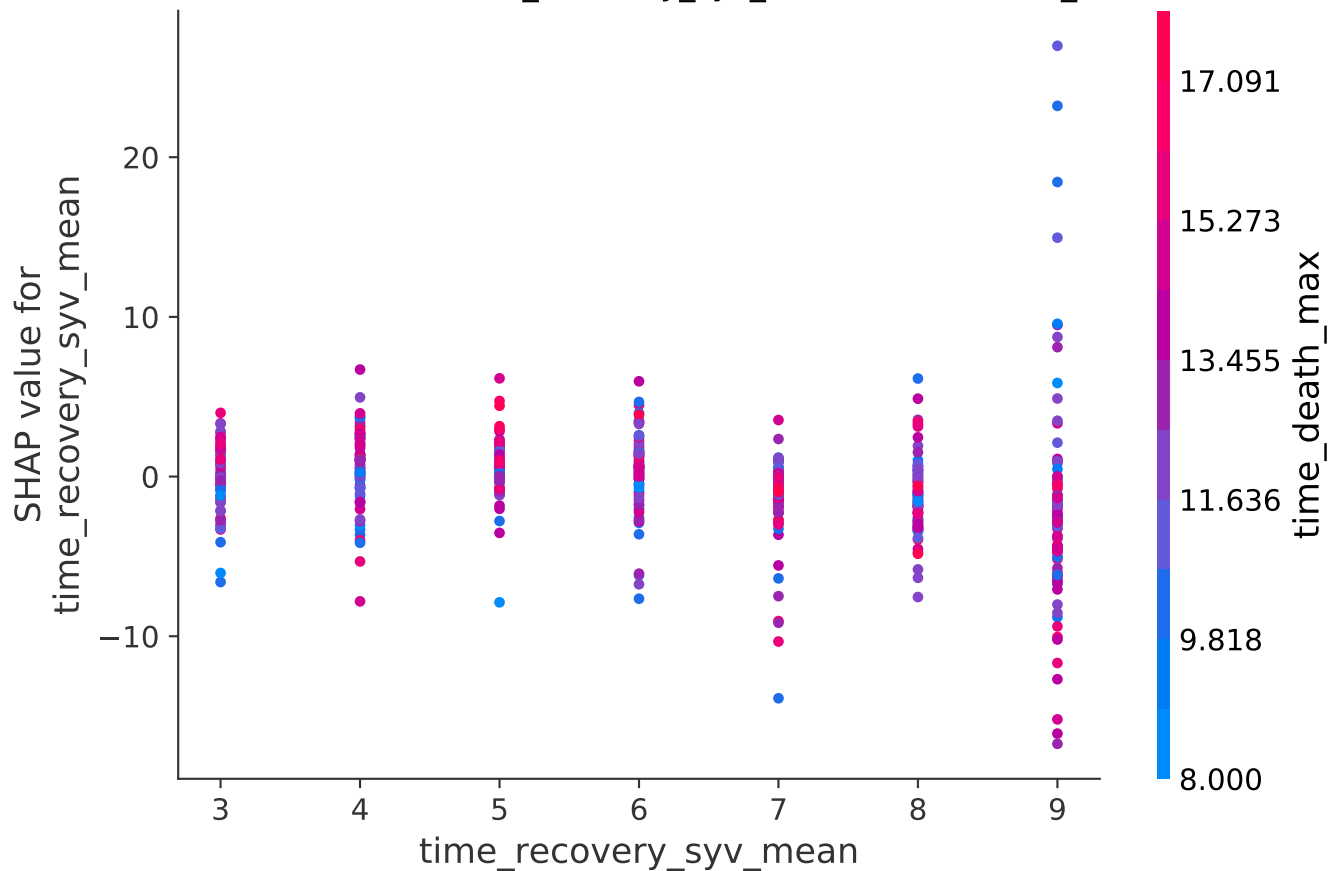

How Interaction with time_recovery_symp_mean Affects total_death

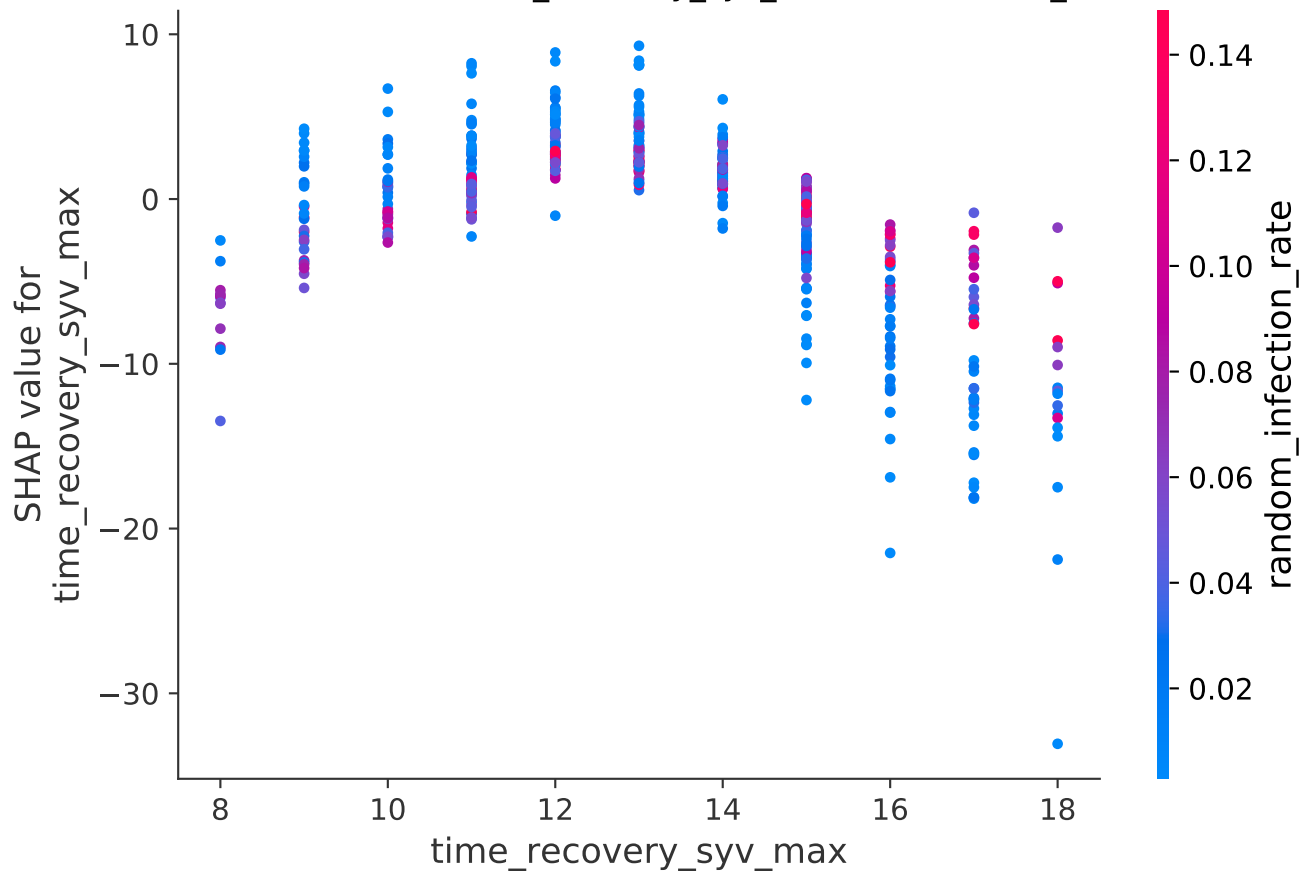

How Interaction with time_recovery_symp_max Affects total_death

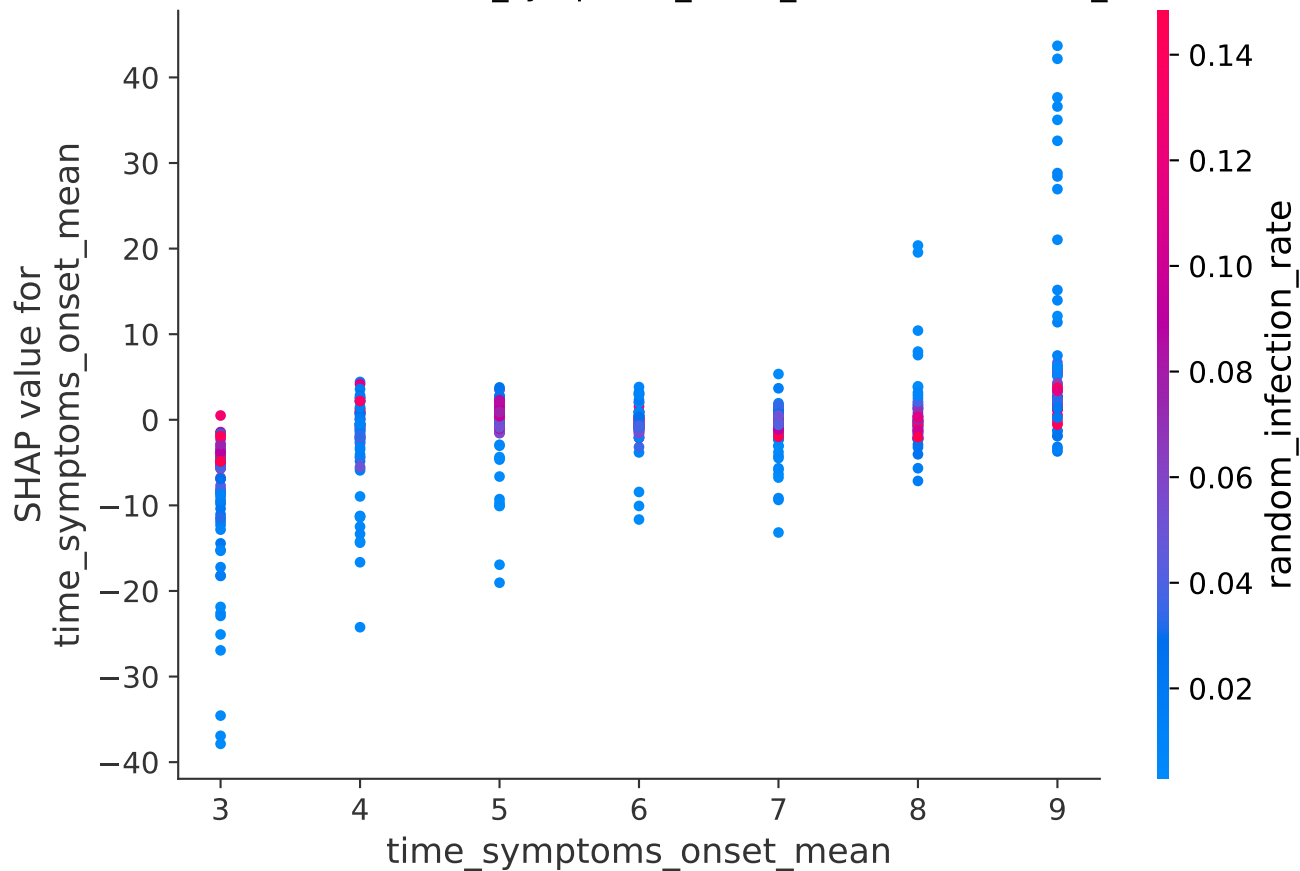

How Interaction with time_recovery_syv_mean Affects total_death

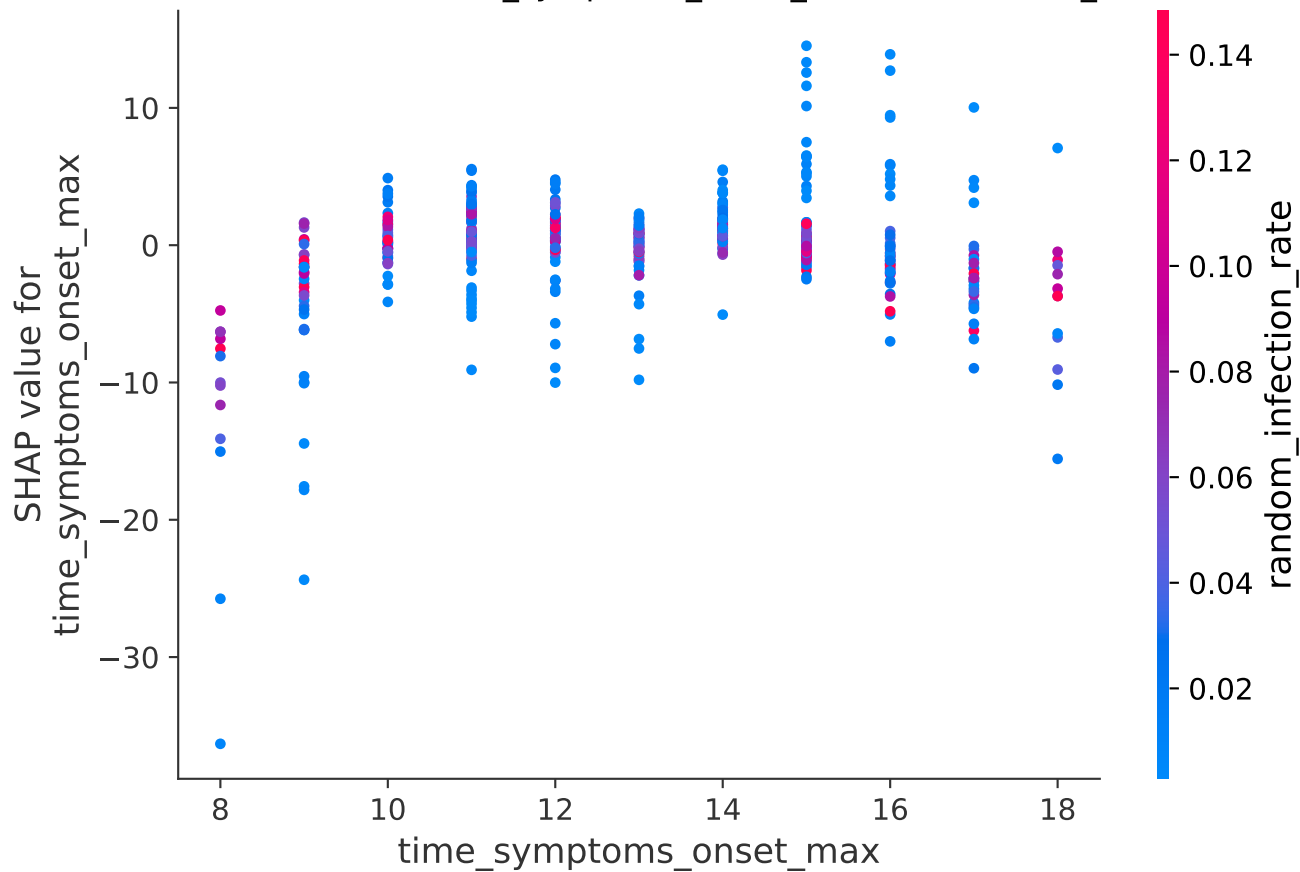

How Interaction with time_recovery_syv_max Affects total_death

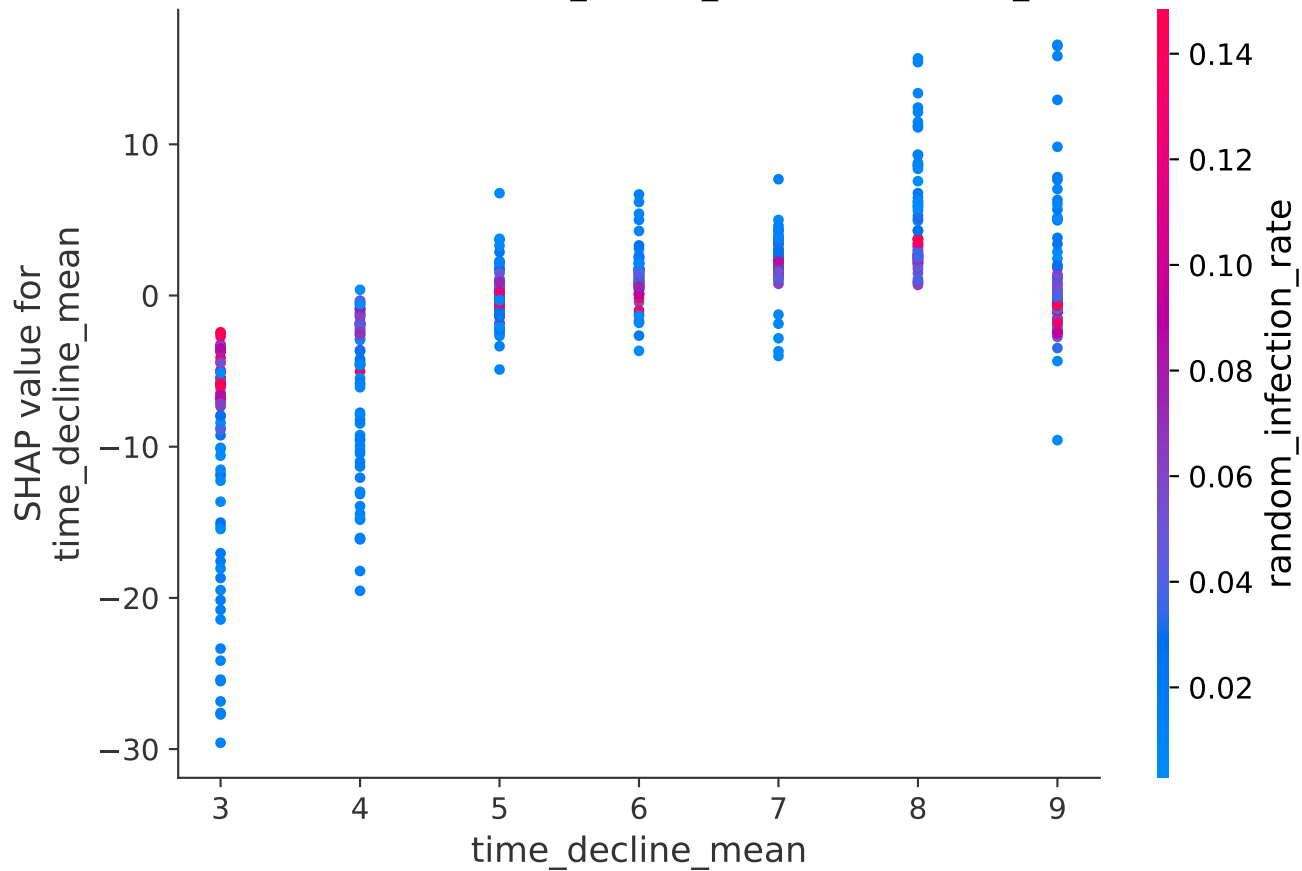

How Interaction with time_symptoms_onset_mean Affects total_death

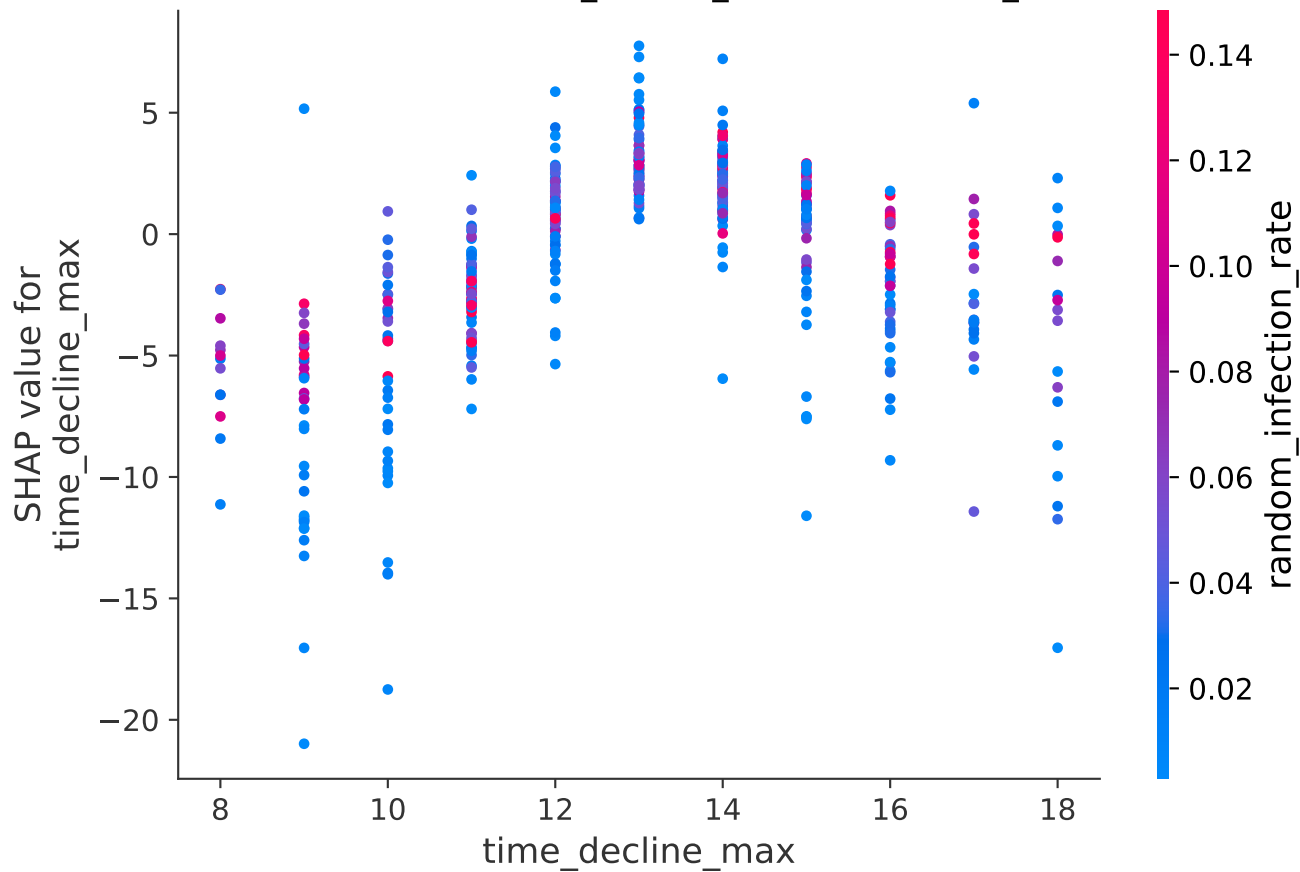

How Interaction with time_symptoms_onset_max Affects total_death

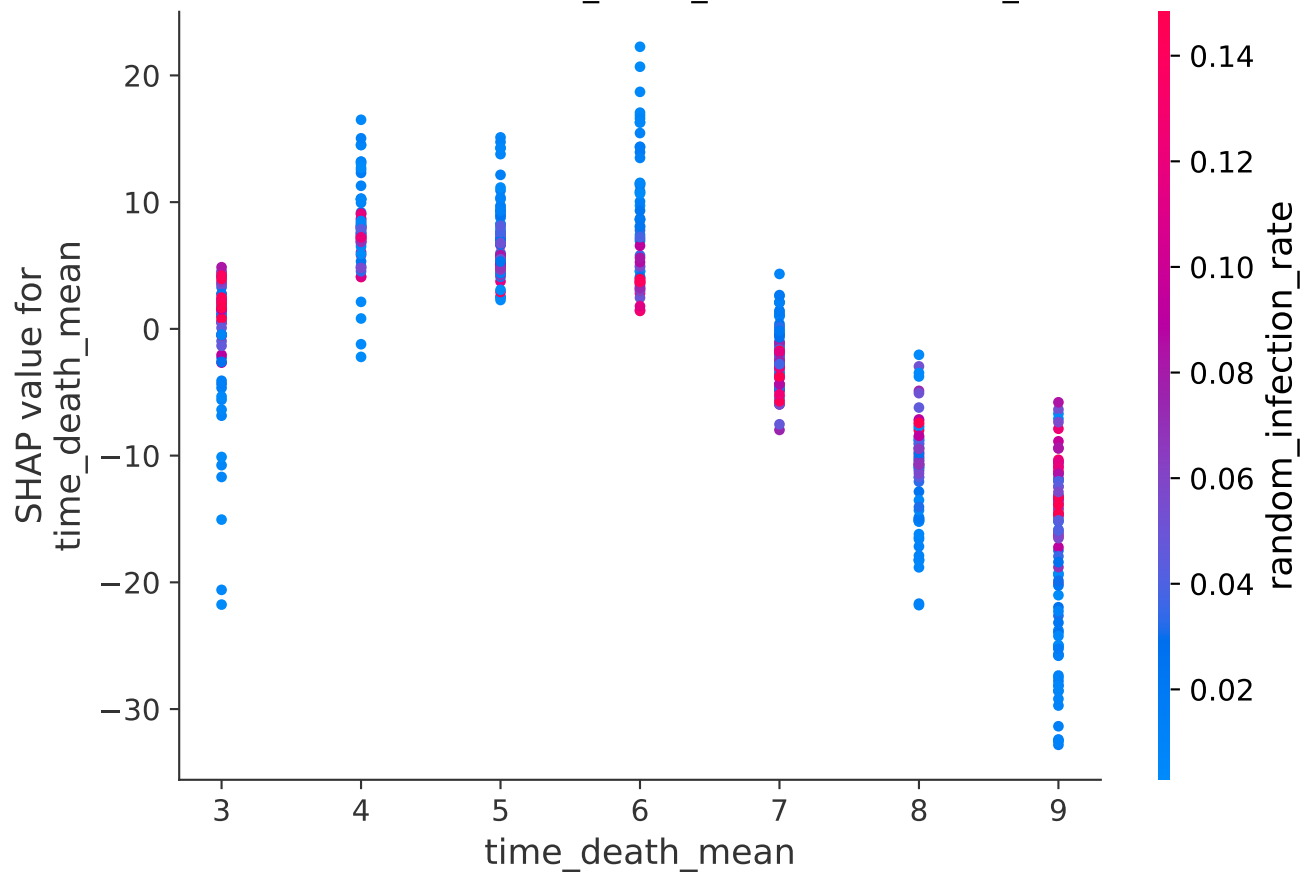

How Interaction with time_decline_mean Affects total_death

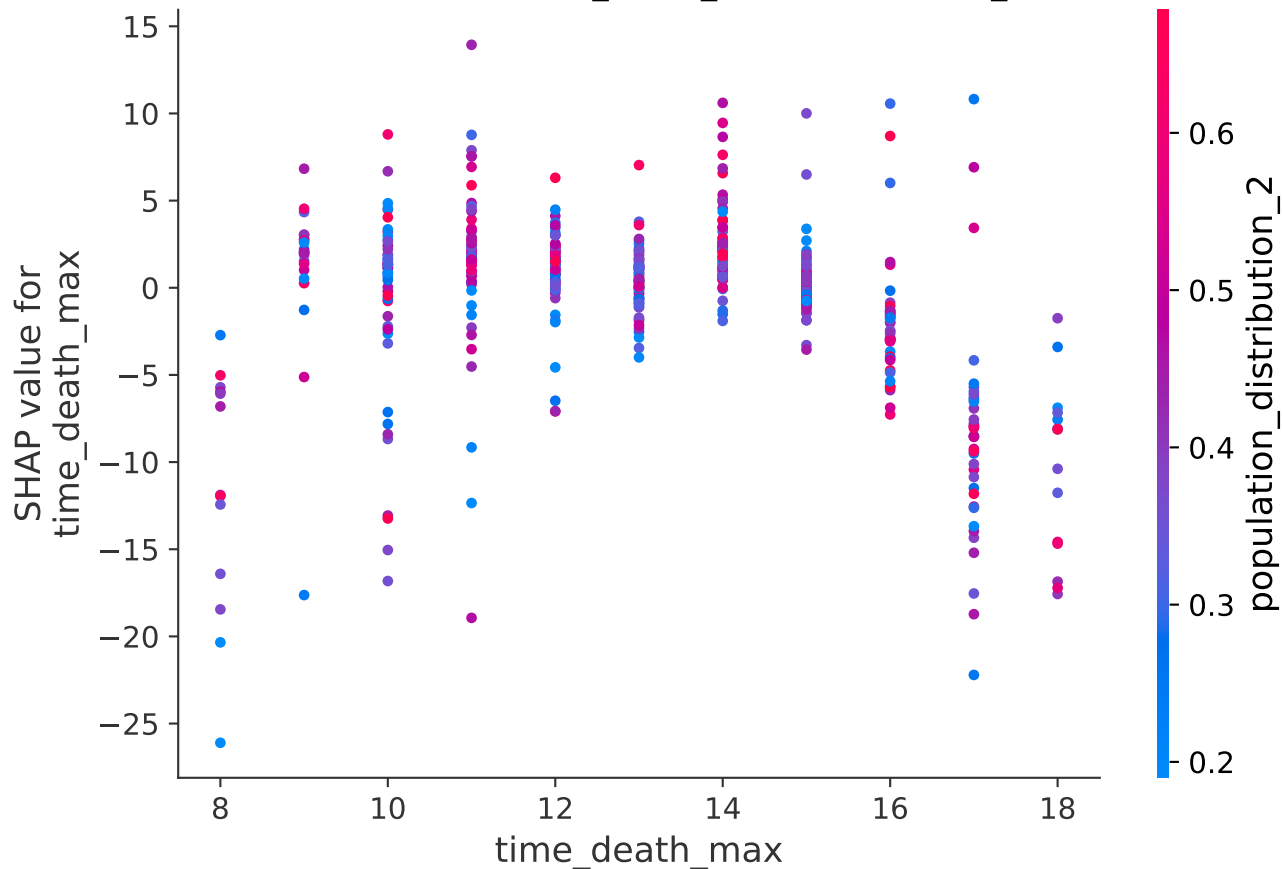

How Interaction with time_decline_max Affects total_death

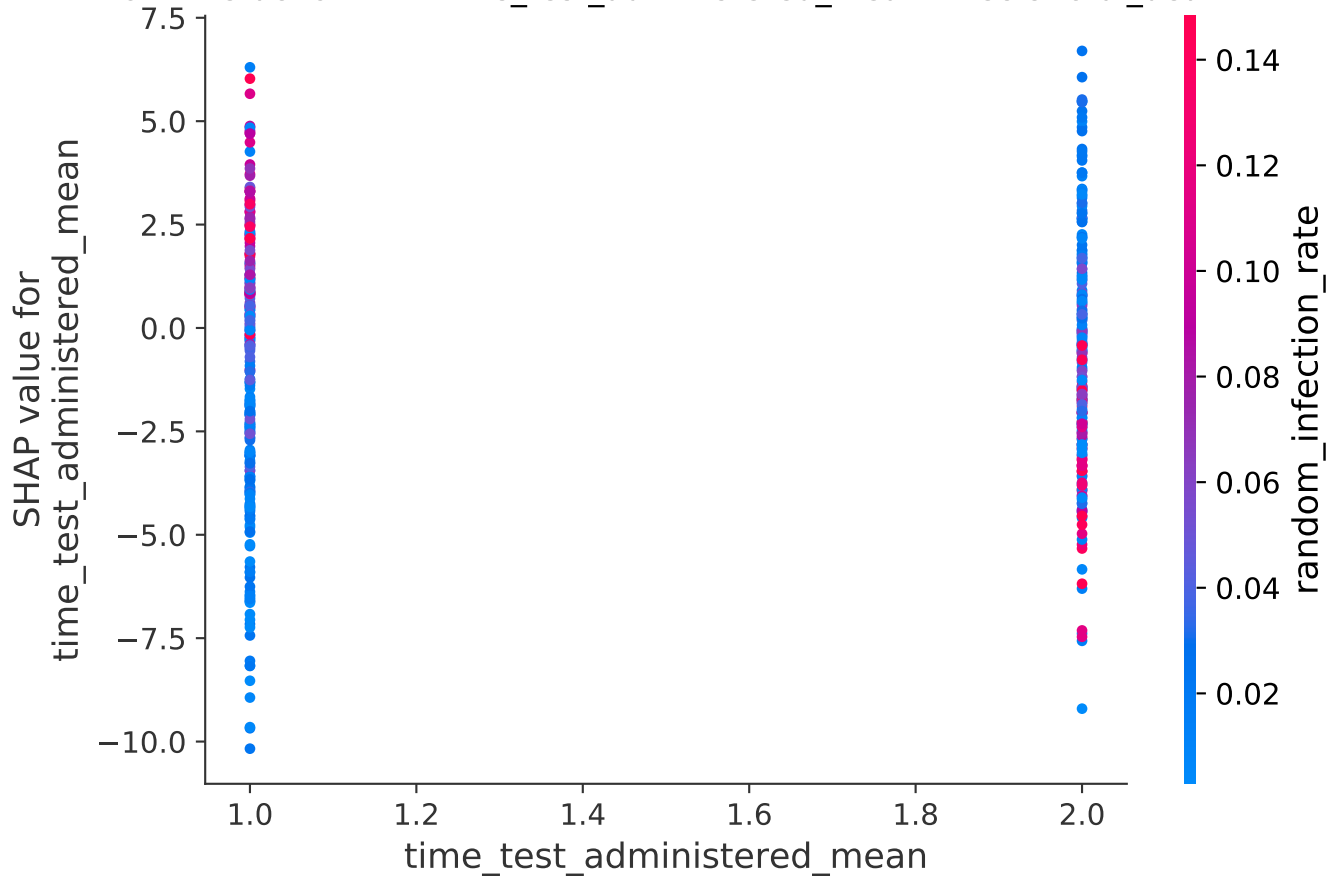

How Interaction with time_death_mean Affects total_death

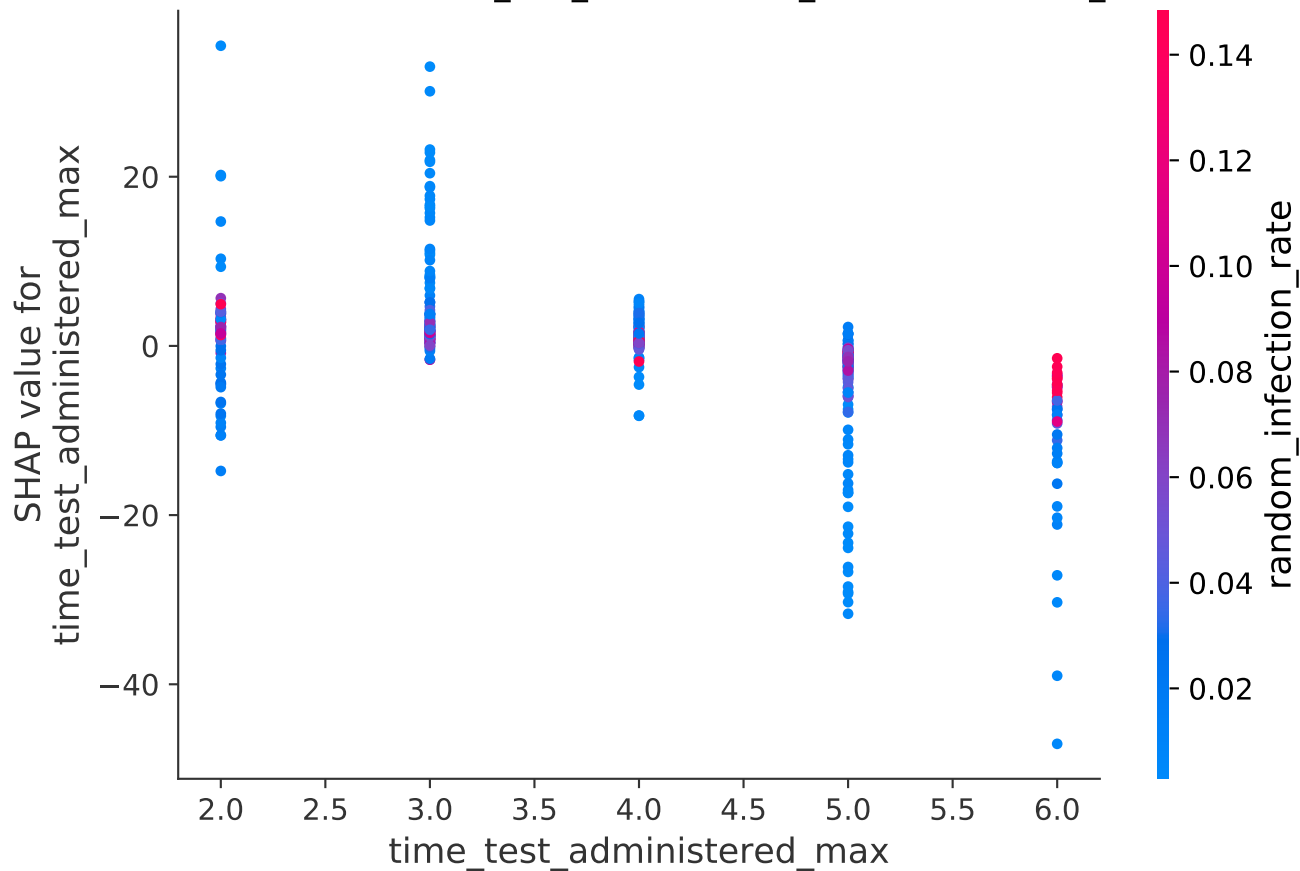

How Interaction with time_death_max Affects total_death

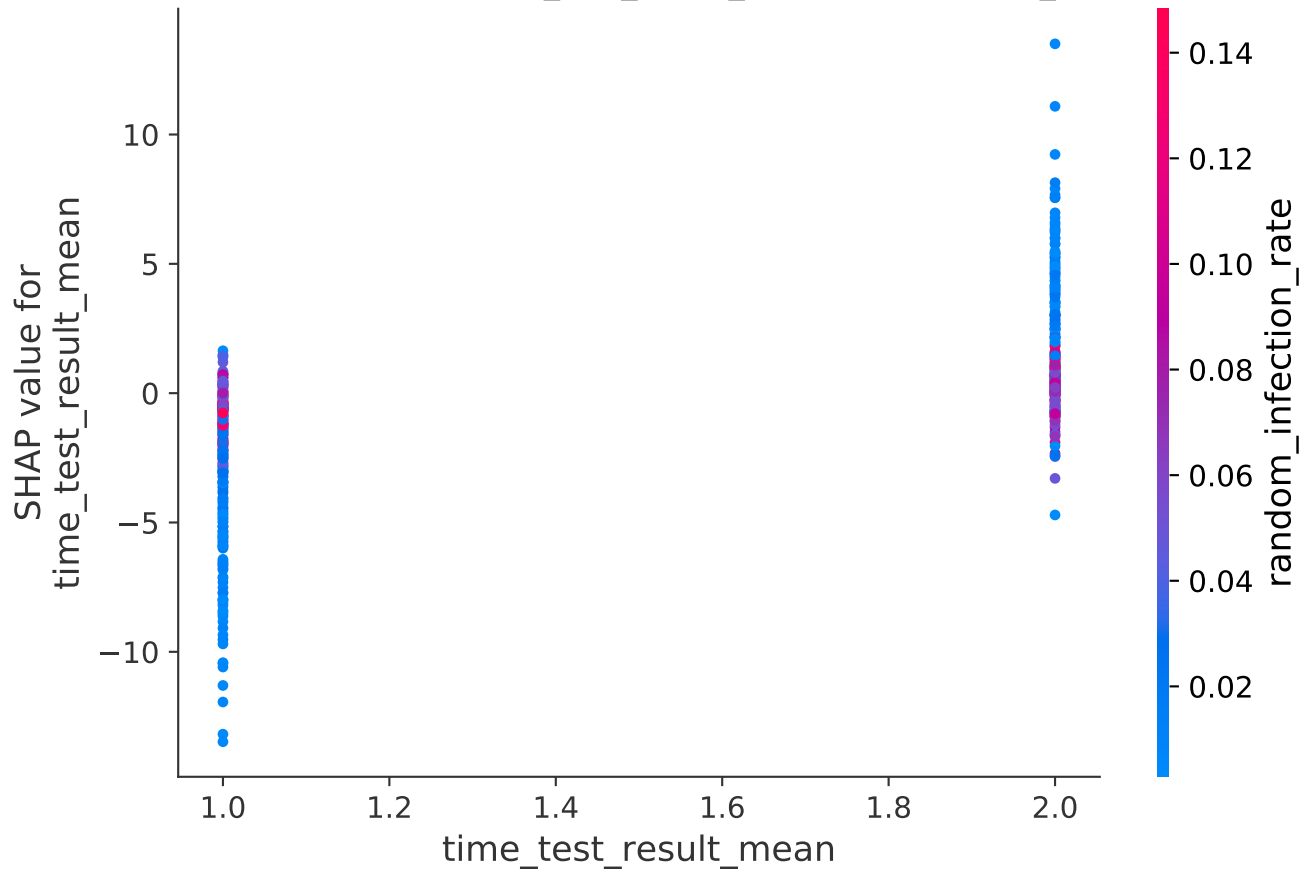

How Interaction with time_test_administered_mean Affects total_death

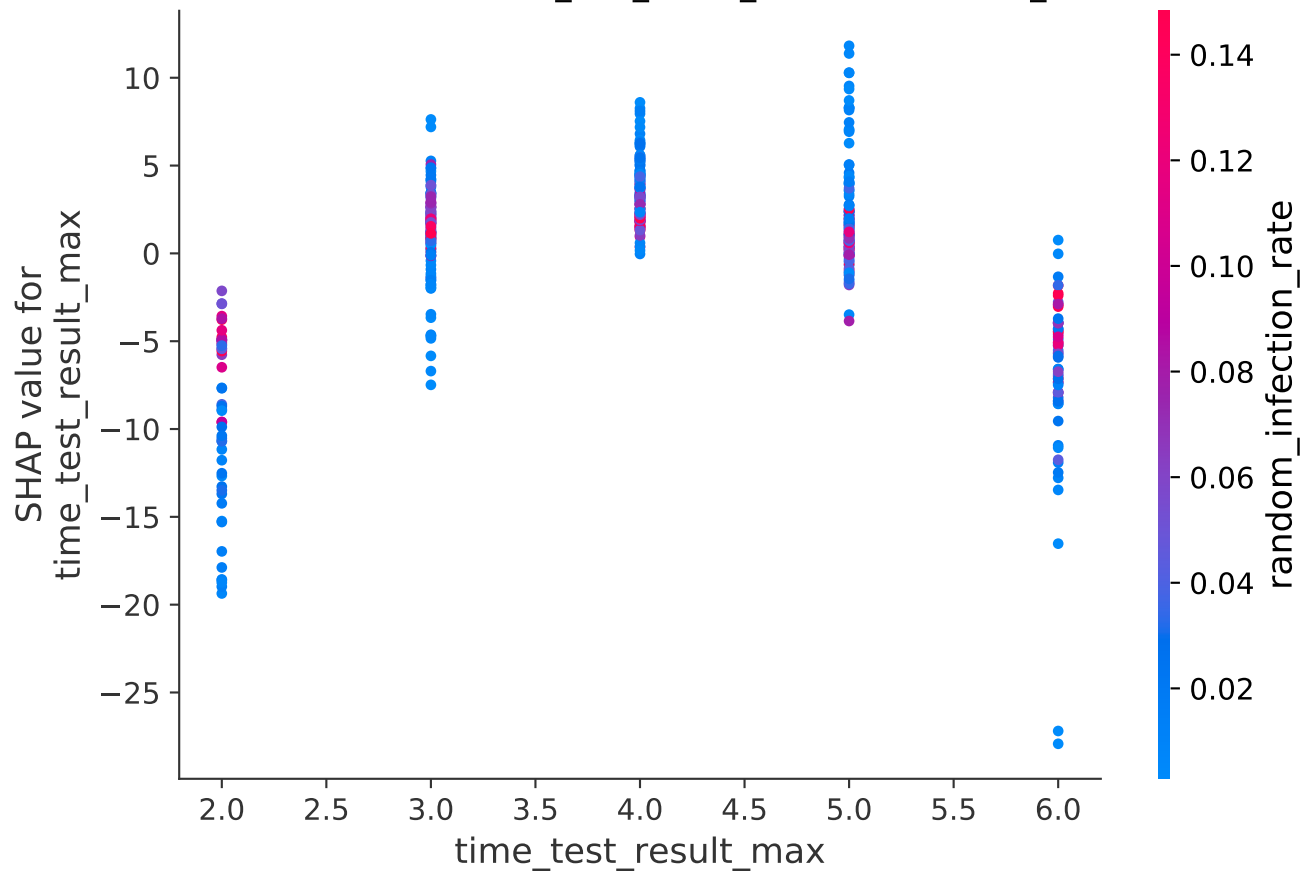

How Interaction with time_test_administered_max Affects total_death

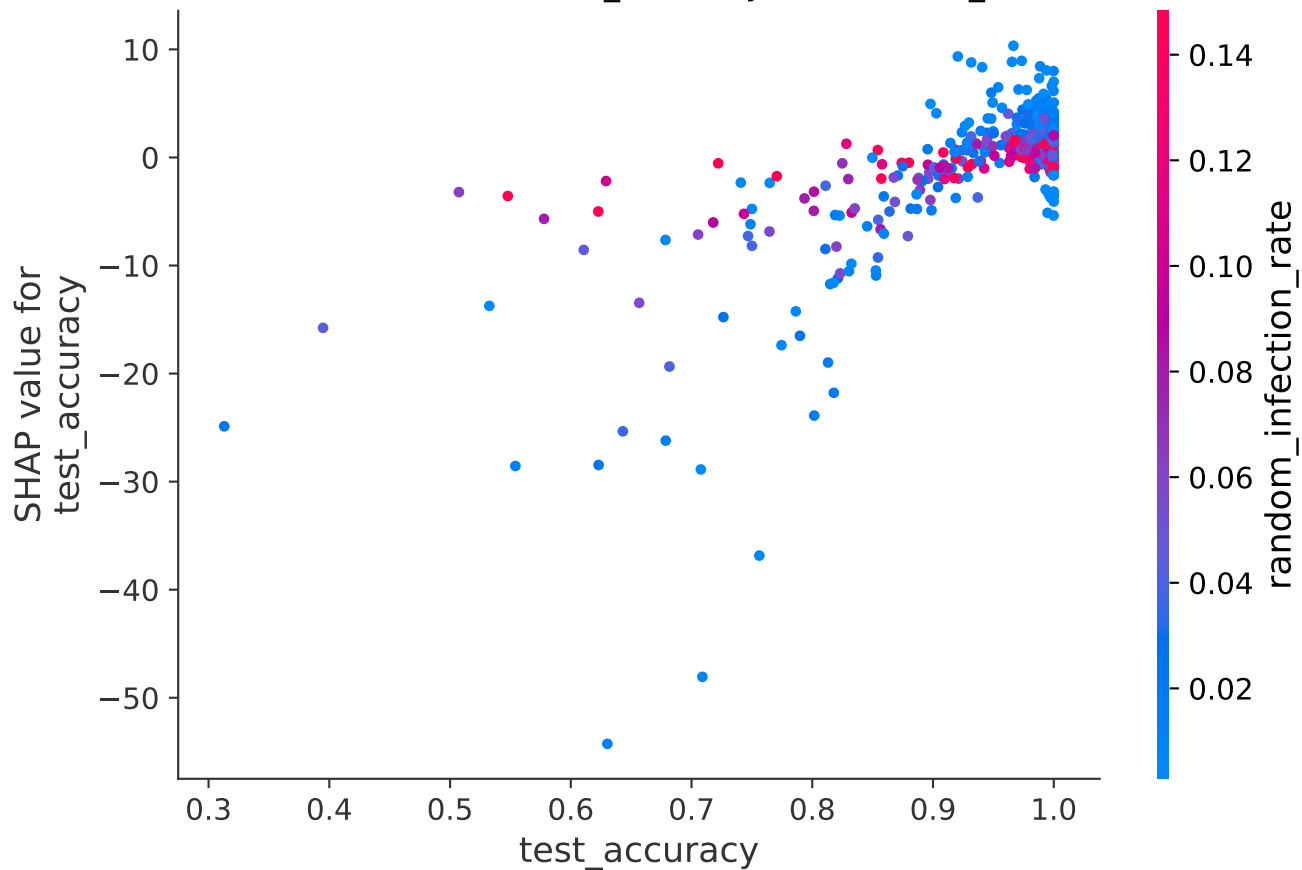

How Interaction with time_test_result_mean Affects total_death

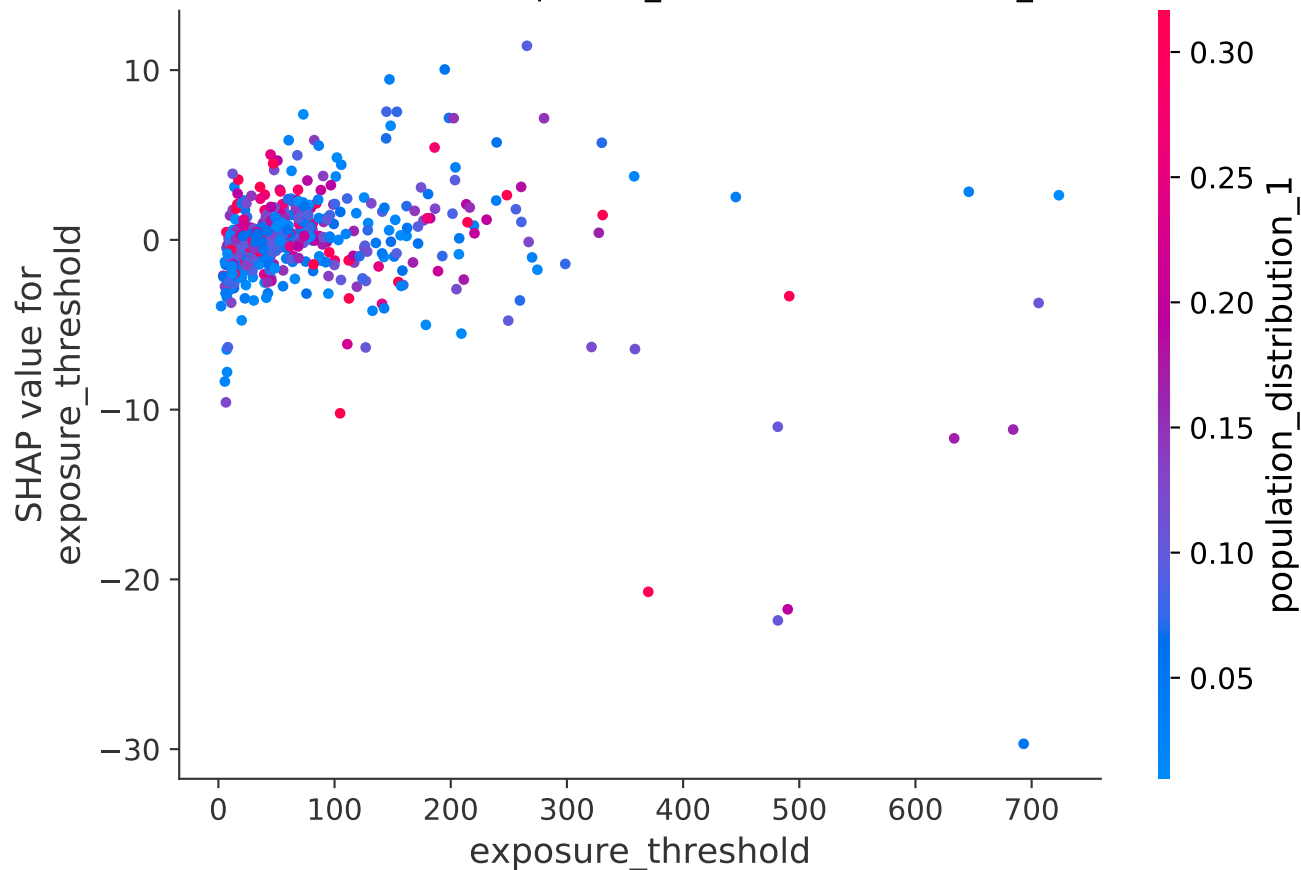

How Interaction with time_test_result_max Affects total_death

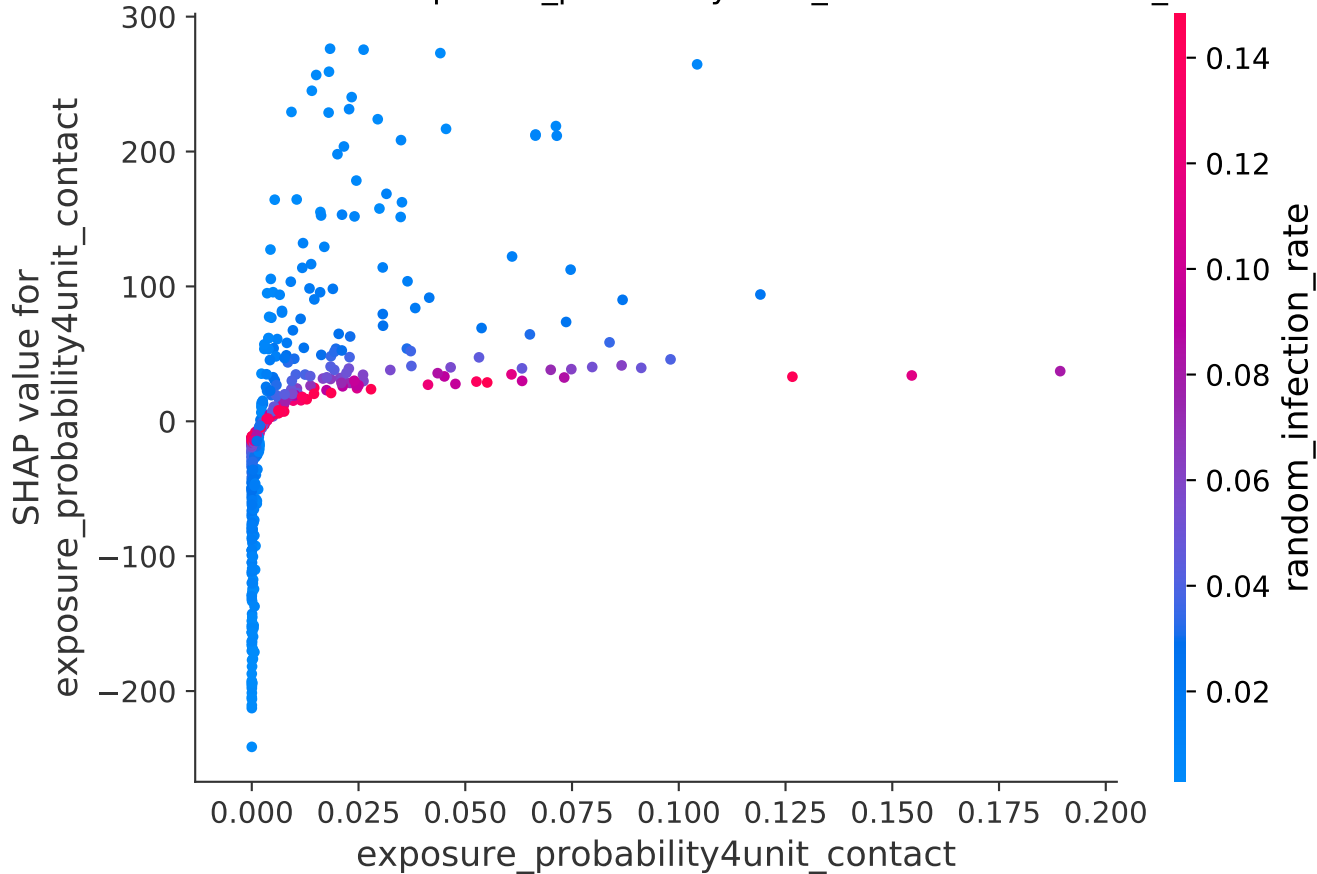

How Interaction with test_accuracy Affects total_death

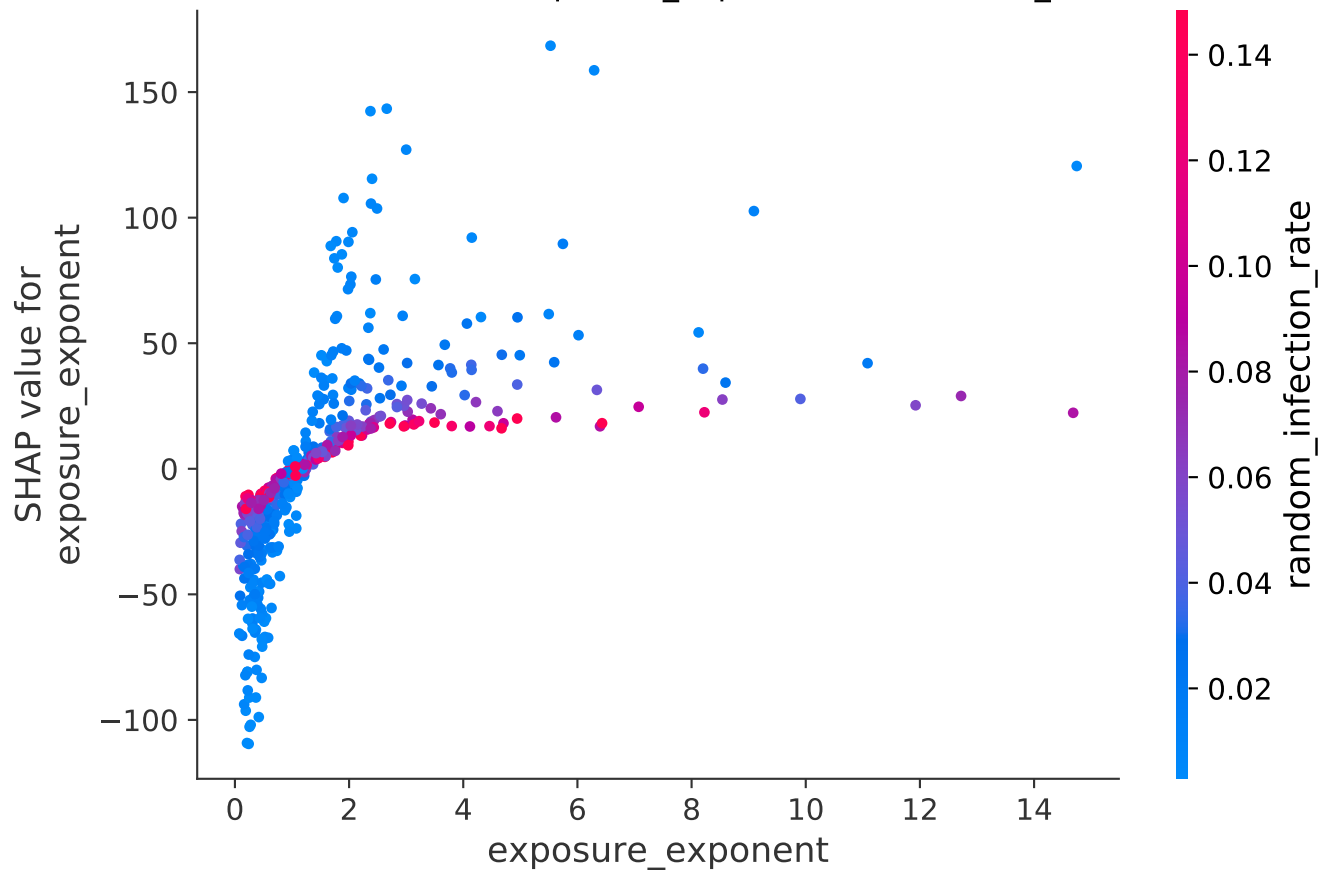

How Interaction with exposure_threshold Affects total_death

How Interaction with exposure_probability4unit_contact Affects total_death

How Interaction with exposure_exponent Affects total_death

How Interaction with random_infection_rate Affects total_death
